

MUKTHAHAR SHAIK

Senior Software Engineer (React Native) | 7 Years of Expertise | Building Cross-Platform Mobile Solutions

mukthaharshaik@gmail.com | 8688028066 | [Portfolio](#) | [LinkedIn](#) | [Medium](#) | [Git Repo](#) | [Play Store](#)

SUBJECT

Senior Software Engineer with 7 years of experience building and leading high-performance React Native applications. Specialized in end-to-end mobile ownership, CI/CD automation, and production deployments for U.S.-based clients across Fintech, Healthcare, and Automotive domains.

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript.

Mobile Development: React Native, Expo, Android (Android Studio), iOS (Xcode), Turbo Modules, Native Module Integration, React Navigation, REST API Integration, Firebase, AdMob, Secure Storage, Push Notifications (FCM/APNs), Sentry (Error & Performance Monitoring).

Web Development: ReactJS, HTML, CSS.

Performance & Optimization: Performance Optimization, App Size Optimization.

Architecture & State Management: Clean Architecture, Redux Toolkit, Zustand, Context API

CI/CD & Release Management: End-to-End Mobile App Deployment, GitHub Actions, Azure Pipelines, Code Signing & Provisioning, Play Store & App Store Release, Versioning & Build Automation.

Tools & Methodologies: Git, Jira, Agile (Scrum/Kanban).

WORK EXPERIENCE

Adroitent Pvt Ltd, Hyderabad (Remote)

09 August, 2024 – Present

Project: TradePending (U.S Automotive SaaS Platform)

Roles and Responsibilities –

- Led end-to-end development of cross-platform mobile applications using React Native.
- Owned full mobile lifecycle: architecture, development, CI/CD, release, and post-production monitoring.
- Managed App Store & Play Store releases including code signing, versioning, and rollout strategy.
- Designed CI/CD pipelines using GitHub Actions & Azure Pipelines for automated Android and iOS builds.
- Improved app performance and reduced bundle size through optimization strategies.
- Integrated push notifications (FCM/APNs), third-party APIs, and real-time data flows.
- Implemented monitoring & error tracking (Sentry) to reduce production issue resolution time.
- Collaborated with U.S stakeholders for feature planning, estimations, and technical decisions.

Emids Technologies, Bangalore (Remote)**01 September, 2021 – 02 October, 2024****Project:** Episode Solutions (U.S Health care Solutions)**Roles and Responsibilities –**

- Developed and maintained two production-grade healthcare mobile applications using React Native.
- Delivered scalable features in collaboration with backend, UI/UX, and QA teams.
- Integrated third-party APIs and optimized data flows for improved performance and responsiveness.
- Identified and resolved performance bottlenecks to enhance user experience.
- Actively participated in Agile ceremonies including sprint planning, estimation, and retrospectives.
- Communicated directly with U.S stakeholders for requirement clarification and delivery alignment.
- Enforced coding standards and improved code quality through reviews and best practices.
- Mentored junior developers and supported issue resolution across releases.

Innoviti Payment Solutions, Bangalore**01 April, 2019 – 09 August, 2021****Project:** Merchant & Sales Manager Applications (FinTech Solutions)**Roles and Responsibilities –**

- Developed and maintained two React Native applications used by merchants and internal sales teams.
- Built transaction dashboards, EMI modules, and UPI integration workflows.
- Implemented real-time notifications and merchant transaction tracking features.
- Designed merchant onboarding flows including lead management and terminal registration.
- Collaborated with backend, product, and QA teams to deliver scalable features.
- Followed reusable component architecture and coding standards to improve maintainability.
- Participated in sprint planning, estimations, and Agile delivery cycles.

Innoviti Payment Solutions Intern – Angular**01 October, 2018 – 31 March, 2019****Project:** Support web Portal (FinTech Solutions)**Roles and Responsibilities –**

- Developed a web portal for transaction log management and merchant issue tracking.
- Integrated backend APIs to streamline payment issue resolution workflows.
- Worked closely with backend teams to ensure accurate data handling and UI representation.
